2.4" Touchscreen Display: Located behind the appliance door, this high-resolution and high-contrast 2.4" touchscreen display can be read from any angle. Stored menu options are intuitive and easy-to-operate.

BioFresh-Plus: With the adjustable temperature range of 0°C and -2°C, BioFresh-Plus technology offers even more flexibility for your produce. The BioFresh-Plus safe includes a versatile Fish & Seafood-Safe.

PowerCooling: A high-performance system that allows freshly stored items to be chilled rapidly while maintaining an even temperature throughout the interior. In this energy-efficient BluPerformance range, the fan switches off when the appliance door is opened, saving valuable energy.

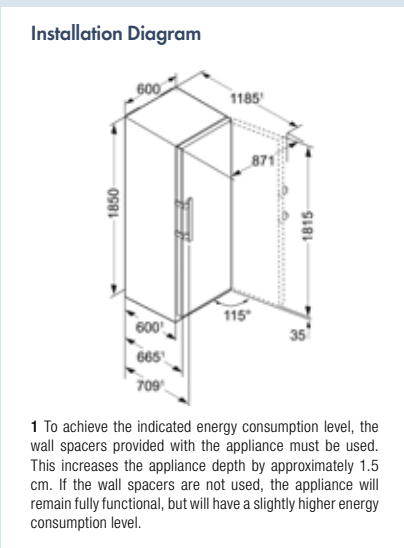

The **SKBes 4360** fridge with BioFreshPlus from the BluPerformance series combines plenty of storage space with perfect cooling performance for long-lasting freshness. This unit can be precisely controlled via the touch electronics system with digital temperature display.

Meanwhile BioFresh-Plus allows added storage flexibility and a longer shelf life for fruits, vegetables, fish, meat, and dairy products. With elegant and timeless design in combination with high-quality materials, components, and workmanship, this model will continue to catch the eye for many years to come.
