

The Perfect Match For Your Kitchen

Quality, Design and Innovation

SIGN 3524

LIEBHERR

Door-on-door technology: Allows custom panels to be affixed directly onto the appliance door so that the hinges are concealed, plus the cabinet and the fridge open as one, ensuring a wide range of design options and easy installation.

MagicEye control system: Our control panel ensures all functions are easy and convenient to use as well as guaranteeing that the settings selected remain accurate and constant.

VarioSpace: The freezer includes drawers and glass shelves that can be conveniently removed to create extra storage space. It's Liebherr's very practical solution to quickly accommodate even bulky items.

The **SIGN 3524** freezer includes transparent, extra-tall and fully removable FrostSafe drawers allow you to efficiently organise frozen food. With FrostSafe, the freezer drawer compartments are closed all round. This means that cold air cannot dissipate as quickly when the door is opened, maintaining the air temperature and ensuring high levels of efficiency. The transparent front of the compartments provides a clear view of the frozen items, so that drawers do not need to be opened as long.

Liebherr's NoFrost technology results in no more manual defrosting and the SuperFrost function saves time and energy to rapidly freeze fresh food. Combine with the **SIKB 3520** fridge for the perfect side by side.
